Dear Hiring team

My name is Gurbanli Majid, and I am junior software engineer based in Budapest, Hungary. I completed my bachelor's degree in Azerbaijan as Computer Science Major, and I am continuing my master's degree in ELTE.

In the third year of my bachelor degree, I completed "Full stack software development" bootcamp organized by "Code academy" with the high honour degree. Later I worked as Mentor in above-mentioned company.

During the last year of my undergraduate year, I worked as back end developer in "Kibrit Tech" which is one of the biggest IT companies of Azerbaijan.

I believe that with my skills and experience I can help Ericsson to reach its goals.

Thank you for reviewing my application. I look forward to speaking with you.

Sincerely Majid Gurbanli
